

Syscon V4 is a series of Product Centers, Modules, and Features that can be Flexibly Integrated to Meet the Evolving Needs of Your Agency

Syscon builds our product from client feedback, market research, and internal research & development initiatives.

We help our clients achieve their mission to reduce risk and make an impact on public safety. We tackle new challenges to help them adapt to the dynamic corrections environment.

We tailor implementations by building out our core product to each clients unique set of requirements.

As the 4th Generation of Syscon's OMS Platform, Syscon V4 is Built on Multiple Decades of Innovation
